

# EASY, CONVENIENT, CERTIFIED AND LOW COST ONLINE FIRE TRAINING

## Welcome to Lockforce's Online Emergency Control Organisation/Warden Training and First Response Training Courses

- Easy, convenient, certified, low cost, online training
- Meets legislative requirements in all states and territories of Australia
- Pay by corporate account or credit cards
- Do this course at your own pace.

Lockforce's Online Fire Training has been produced in line with Australian Standard 3745-2010 – Planning for Emergencies in Facilities.

## National Requirements

QLD	NSW	VIC	SA	WA	NT	TAS	ACT
✓	✓	✓	✓	✓	✓	✓	✓

On the successful completion of your course you will be issued with a certificate of completion. A copy of this record must be given to your employer for their files. As per the legislation, you should then be given orientation to your building-specific fire and emergency procedures including; the location of first response fire fighting equipment, manual alarm points, fire stairs, and the evacuation assembly point. It is also expected that you will participate in a building evacuation drill on an annual basis.

As an occupant or owner of a building, it is mandatory by law to ensure the safety of every person in that building in case of a fire or emergency situation. This program must be completed every 12 months to remain compliant with the National Building Code of Australia as well as State Statutory requirements.

If your staff are located at different offices or sites around Australia, they can simply log in and conduct the Online Fire Safety Training courses. All Lockforce Fire Training Online courses are fully compliant with AS 3745:2010.

**Remember:** Lockforce will provide you with a unique login code and at the successful completion of the course you will receive a certificate of completion, which meets the legislative requirements. So contact us today and let's get compliant.

## Online Training Fees

The Fire Training and Emergency requirements are in accordance with the **Building Fire Safety Regulation 2008, Australian Standard 3745-2010 Planning for Emergencies in Facilities and Australian Standard 4083-2010 Planning for Emergencies in Health Care Facilities.**
